

## FPS

### Full Patroller System

Data sheet

### Features

- Water pump cart for places without water infrastructure
- Can work with 4 Patroller at the same time
- Extremely long working time: about 4 hours between refueling\*
- Towed by any vehicle/tractor with a ball mount
- Large water capacity
- Driven by a powerful generator
- Meets the requirements of the Ministry of Transportation in Israel\*\*

### Electrical Specifications

Generator power	5.7 KW
Fuel type	95 Octane Gasoline
Fuel vessel capacity	4.06 Litters

### Interface

Water connector	12mm Pipe diameter
-----------------	--------------------

### Specifications

Pipes rollers	4 units
Pipes roller length	50 meters
Water containers capacity	2000 Litters
Water pump power	1.6 KW
Water pump max pressure	Bar
Water pump working pressure	Bar***
Max flow rate	2,600 Litters/Hour
Full cart weight	2500 Kg
Cart Dimension	3 meters long * 1.3-meter width * 1.2-meter High
Operation Time	Day & Night
Material	Aluminum & Stainless steel
Weight	4 Kg

\* Estimated

\*\* Subject to an annual licensing test

\*\*\* Refers to work mode with 4 robots at the same time
